

STASH

by Liberty

What is Stash?

Stash is a tax-free investment that helps you invest by saving small amounts of money every day via an App.

You can stash automatically from a connected bank card, from as little as R5 per day, or simply stash at any time with the press of a button.

You can also choose to invest your money in either an SA Top 40 Shares portfolio, a Cash+ portfolio or in both, depending on your needs and investment goals. The value of your Stash is linked to the performance of the portfolios.

Stash gives you full control over when and how much you contribute. Use the app to pause, adjust, stop, and restart how much and when you invest. Need your cash? Stash offers full access to your funds directly from the App.

Stash is offered and operated by Liberty Group Limited, who've been creating innovative ways for South Africans to insure, save and invest for over 60 years.

How do I stash?

Stash has several features you can set in the App to automatically stash small amounts of money:

10c Challenge

Kick-start your savings habit by stashing, starting with 10c a day and building your contributions up daily.

Stash every day

A little goes a long way. Set to Stash daily from as little as R5 per day, up to R100 if you can.

Stash when it's sunny

When it's sunny, save for a rainy day. Stash checks the weather in your area daily. If it's sunny, you stash some money. If it's cloudy, you don't.

Stash when you sweat

Stash 5c for every 20 calories you burn, 20 seconds of activity, 100 meters you walk and 100 steps you take. Link your Stash App to a Fitness App on your phone.

Boost your Stash

Stash your extra cash at the end of the month. You can boost your Stash by up to R1000 p.m.

Stash in a tap

Missed your daily coffee? Quit smoking for a week? Invest that spare cash at once with a simple tap on your Stash App.

Stash when there's load shedding

Sitting in the dark? Why not let Stash invest the money you would have spent on electricity for your brighter future?
